Draft Bye-laws *re* manufacture, preparation and sale of ice and ærated waters framed under Section 48 (*c*) of the Mysore Municipal Regulation of 1906.

1. No place shall be used for the manufacture or preparation for sale of ice or ærated waters unless licensed for the purpose.

2. Any person wishing to use any premises for the said purposes shall apply to the President for a license. The President may, in his discretion, grant or refuse such license.

3. Application shall be made to the President before the end of the first month of each official year for the renewal of all licenses granted under this bye-law.

4. Fees at the rate of Rs. 50 for ice manufactory and Rs. 100 for ærated water manufactory shall be charged for licenses granted under these bye-laws.

The following conditions shall be attached to all licenses granted under its Bye-law for any of the following purpose :—

(1) *Manufacture of Ice.*

(*a*) Water to be converted into ice shall be drawn only from such sources as are approved of by the President.

(*b*) Such water shall not be carried in massacks or in any other vessels not approved of by the President.

(*c*) Carts employed for the carriage of such water shall be kept on the premises and shall have the designation of the factory painted on the barrel and shall at all times be kept in a state of scrupulous cleanliness.

(*d*) Ice factory premises shall be kept in a state of scrupulous cleanliness and thoroughly drained of all waste water.

(*e*) It shall be lawful for the Health Officer or any Municipal Sanitary Inspector to enter any place used for the manufacture or sale of ice at any time when such place is open, to inspect or to take a sample of ice which is there manufactured or kept for sale, and any proprietor or person in charge of such place who shall refuse to permit to take such sample shall be guilty of an offence. Such sample shall be forthwith forwarded to Government Chemical Examiner and Bacteriologist and if a certificate from him states that such sample is unfit for human consumption shall be evidence that it is so unfit until the contrary is proved and the proprietor or the manager of any place used for the manufacture or sale of ice, from which place any such sample was taken which proved to be unfit for human consumption shall be guilty of an offence.

(2) *Manufacture of Aerated Waters.*

(*a*) All water to be manufactured into ærated waters shall be boiled before use and be kept while cooling in a suitable covered vessel.

(*b*) If the water be filtered after boiling, the filtering vessels and materials shall be sterilized at such times and in such manner as the President may direct.

(*c*) All water to be used for washing bottles shall be stored in closed iron vessels and be treated before use with permanganate of potassium in such manner as the President may direct.

(*d*) The room in which ærated waters are manufactured shall be properly roofed and kept clean and in good repair ; the walls shall be plastered with mortar and shall be limewashed at least once in three months ; the floor shall be flagged, tiled or cemented so as to be impervious to water and shall be properly drained.

(*e*) All water to be manufactured into ærated waters or to be used for washing bottles shall be drawn only from sources approved of by the President.

(*f*) Such water shall not be carried in massacks or in any other vessels not approved of by the President.

(*g*) Carts employed for the carriage of such water shall be kept on the premises, shall have the designation of the factory painted on the barrel and shall at all times be kept in a state of scrupulous cleanliness.

(*h*) The premises and all appliances used in the manufacture shall be opened to inspection at all reasonable times by the President, the Health Officer or any other Municipal Officer.

(*i*) No ærated waters of any kind shall be issued from the manufactory without having a proper label on each bottle, giving full name and address of the manufacturer.

It shall be lawful for the Health Officer or any Municipal Sanitary Inspector to enter any place used for the manufacture or sale of ærated waters at any time when such place is open to inspect or to take a sample of bottles of any kind of ærated waters which are there manufactured or kept for sale and any proprietor or person in charge of such place who shall refuse to permit to take such sample shall be guilty of an offence. Such samples shall be forthwith forwarded to Government, Chemical Examiner and Bacteriologist and if a certificate from him states that such sample is unfit for human consumption shall be evidence that it is so unfit until the contrary is proved, and the proprietor or the manager of any place used for the manufacture or sale of ærated waters, from which place any such sample was taken which proved to be unfit for human consumption, shall be guilty of an offence.

A breach of any condition of any license granted under this Bye-law either for ice or ærated water manufactory shall render the holder of the license and the person in charge of the place licensed, liable on conviction to a fine not exceeding Rs. 20 and to a further fine which may extend to Rs. 5 for every day after such conviction during which the breach continues.

A. K. PANI,
Health Officer.
